Stephanie - Maybe this will help.

At Libby Asbestos Site, finalized the toxicity values, drafted the Risk Assessment and published the Proposed Plan for OUs 4-7. Completed 60 property cleanups. Continuing dialogue with MDEQ and Lincoln County on ICs and O&M. At Richardson Flats Site, signed an AOC with United Park City Mines for environmental cleanup work in the mining source areas. At Hill Air Force Base, signed 3 RODs and an ESD. Responded to Bridger Pipeline Spill of ~700 bbls of Bakken crude into a frozen Yellowstone River. Responded to Gold King Mine release by coordinating with R6, 9, HQ, local officials and working effectively with staff. Finalized the CO Smelter Site to the NPL and initiated RI/FS and removal actions. Communicated results of ATSDR exposure investigation in Pueblo. Proposed Columbia Falls Plant for the NPL. Working to finalize an AOC and potential listing package for the Smurfit site in Missoula. Negotiated an AOC for the RI/FS at the Cotter site. Working collaboratively with RMA to develop a risk assessment that may support modification of ICs. Coordinated public announcement of the SF deletion and returning the Midvale Slag site in UT to valuable use. Working with developers at Shattuck and Globeville properties in Denver to return sites to productive commercial and residential use. Completed 86 Brownfield Assessments including 51 EPA lead assessments. Cleanup completed at 21 brownfield properties facilitating development of an Easter Seals Goodwill facility in Great Falls, MT, affordable Sr. housing in New Rockford, ND, commercial redevelopments in Alamosa, CO, Kalispell MT, Missoula, MT, Helena MT, and Shelby MT. Provided leadership in 3 Making A Visible Difference communities resulting in cleanup of the former Caird Engineering Works in Helena, MT, a \$50MM redevelopment of the Zuni property in Denver and the installation of the first 20 LEED platinum homes adjacent to 2 Brownfield properties on the Ft Peck Reservation. Developed PR video and outreach event for the announcement of the Arkansas River as Gold Medal Trout waters. Published a video documenting R8's flood response efforts of 2013 and provided sustainable recovery support for CO and Jamestown after completing CO flood response efforts.

Martin – If you could help provide me some narrative input on this one commitment, I would appreciate it.

Ensure Superfund and Brownfields work in Region 8 achieves remediation and reuse, and includes sustainability components into programs and site remediation projects.

Thank you,

Stephanie
